

Ambulance Unit 3046

State of the Art Equipment:

The Walsh Ambulance Service strives to maintain the latest and best equipment available to us.

Our units are equipped with Zoll Cardiac Monitors, AEDs and Physio Control Lucas2 Mechanical CPR devices.

We have iPads that are used for patient care reports.

Each First Responder and EMT is issued a medical/trauma kit to keep with them to provide care before the ambulance arrives if they are closer than the ambulance.

We keep the best, possible up to date equipment by utilizing donations, fund raisers, grants and revenue from calls to sustain and improve our service.

Who We Are

About Us

The Walsh Ambulance Service provides a combination of Basic and Advanced Life Support to residents, visitors and travelers in the Eastern portion of Baca County from County Road 32 to the Kansas state line. The Ambulance Service is operated under the Walsh Hospital District. Our service is made up of volunteers who are paid on call.

Get to Know us:

The Walsh Ambulance Service is a rural ambulance service managed by the Walsh Hospital District Board of Directors.

We cover 1300 square miles of Baca County in Southeast Colorado. We proudly provide Basic Life Support and Advanced Life Support to 1900 permanent residents in the Walsh, Vilas, and Two Buttes areas.

Members of the Walsh Ambulance Service are volunteers but do receive a small amount of pay for each call. Members respond to either the scene or The Ambulance Station depending on the location.

We strive to deliver the highest level of patient care with the latest techniques and advancements in emergency medicine.

Have you ever thought of helping your neighbor, friend or family member? At some point during our lives each of us is likely to need emergency medical care. If you would like to become an important part of our team please call to discuss how to join the Walsh Ambulance Service Family.

Did you know...

The Walsh Ambulance Service utilizes Registered Nurses and Paramedics to provide Advanced Life Support.

The Walsh Ambulance Service will provide transport to any hospital of the patients choice providing no immediate life-threatening condition exists.

The Walsh Ambulance Service conducts inter-facility transports.

The Walsh Ambulance Service has over 38 First Responders, Emergency Medical Technicians, Paramedics and Registered Nurses who are affiliated with our service.

Our Mission is to provide the highest quality pre-hospital care and transport while ensuring that we care for the person and not just the patient. We support a positive and team work environment for our staff and patients.

Services

The Walsh Ambulance Service offers many services to the community outside of providing emergency medical care or transfers:

The Walsh Ambulance Service can provide Cardiopulmonary Resuscitation (CPR) and First Aid training to you or your place of work, worship or civic organization for no cost.

The Walsh Ambulance Service has five American Heart Association (AHA) Instructors along with seven American Safety and Health Institute (ASHI) instructors to provide Wilderness First Aid, CPR, Wilderness EMT upgrade, Child and Baby Sitting Classes among many other courses.

If you are in need of any health related classes please contact us to arrange a time and location.
