

Dear Landowner/Water Owner,

The Walsh Ambulance Service purchased a program called lamResponding. This system includes a section for mapping of critical assets. One of the items we would like to map are access to water sources that may be used during a fire in the area. These may be irrigation wells, stock tanks, pools, water tanks, cisterns, or other water storage systems. The Walsh Ambulance Service and its members work very closely with the Walsh, Vilas and Two Buttes Fire Departments. The information provided will be made available to members so that they would have access to the information during an incident. We would like to ask you to complete the following form and return it to us so that we can put your information in our system. The system is very robust and will help with response to medical and fire calls as well.

Thank you for your help and time in preparing our agencies for a large wildfire event.

A handwritten signature in black ink, appearing to read 'Riley Frazee', with a long horizontal flourish extending to the right.

Riley Frazee

Walsh Ambulance Service

UNIQUE WATER LOCATION NAME: \_\_\_\_\_

WATER OWNER NAME: \_\_\_\_\_

CONTACT PHONE 24/7: \_\_\_\_\_
